

Connecting the Dots

by Clyde Ferrell, Jr. (Mount Calm, Texas)

When I was a young boy I enjoyed the dot pictures, where you drew a line from dot to dot and eventually after all the dots had a line drawn to them you could see the picture outline. It is apparent in our world today, we Americans have trouble connecting the dots as we must not want to see the picture that would outline the true America of yesterday and today.

Let us start out with the 9/11 dot. The next dot is the War On Terrorism dot followed by the Homeland Security Dot. Then comes the let's go get Osama bin Laden dot, the bomb Afghanistan dot, go get Saddam dot, bomb Iraq dot, give Iraq Democracy dot and now it's the gas is too high dot, education cost dot, grocery cost dot, etc., etc., etc., dot, dot, dot.

Knock, knock. Who's there? Dot Com, Dot Com who? Dot Communistic government that we thought we got rid of in the U.S.S.R. That's right! It is rearing it's ugly head in American, in the name of, "We had to instigate more Marxism because of 9/11," so we could protect America from the terrorist. Hello! Hello! Anybody looking, learning, and listening. Let's go to Iraq and fight terrorism there, to keep it from coming to America. In the mean time let us leave our borders wide open for any Tom, Dick or Harry to cross who wants to! Are all the terrorists really going to go to Iraq just to fight us? These dots do not make a clear picture to me as 15 of the so called hijackers of the 9/11 tragedy were Arabs, so we invade the sovereign country of Iraq?

Last year we had one of the most catastrophic natural disasters ever to hit our American shores and it was not as a result of terrorism. We had the devastating storms in Florida, Louisiana, Texas, the tremendous tornado activity of the last two years and we could do nothing about it. Or could we? Two of the biggest dots we seem to neglect, is that line drawn from Man to the true God (Creator). The Bible in plain language says, "If you disobey Me, I will curse you." (Deuteronomy 28:15-68) America, REPENT of your sin. Immorality, drug trade, witchcraft, war, etc., etc., we have it all in this country and it comes in and goes out via our coast lines.

Look at what is happening in the so called land of free Israel. Their democratic government is using force to remove Israeli settlers from their homes. Our democratic laws do the same thing here but very little is said about it. If your home is your home how is it you can loose your home for not paying school taxes? Or how is it now, with the new laws, that you have no recourse in some states if some corporation wants your property they can get it?

The new laws that have been passed since 9/11 have already started to erode the few pillars that hold up any form of civility for our country. The biggest enemy of the citizens of America is it's own system of government as it systematically turns us into The Marxists Regional Corporate States of The World. Mark my words. It will happen and for a short time it will rule most of the world until the return of our Creator. The Creator will connect the final dot and then we will get the picture. (Don't pray for the Creator to save America, pray that the people will repent of their sin and moreover, pray that the Creator will return soon and give His people the promised immortality so they can re-establish His Spiritual Kingdom here on earth.)
